

Moaqeeet

Moaqeeet is a GUI used to show prayer times in mosques and give a visual and aural notification when a prayer time comes. Moaqeeet intended to be displayed on a Monitor/Display in the Mosque.

Note: The program is designed to work on Full HD (1920×1080) screens and may not show properly on other sizes of screens

Installation

1. Executable jar

If you just want to run the program:

- (a) Download the installation file "Moaqeeet.exe".
- (b) Run it using admin permission.
- (c) Choose where you want to install the program.
- (d) Click next.
- (e) Run the jar file "Moaqeeet.jar" to run the program.

2. Source code

If you want to compile/change the source code:

- (a) Clone the repository.
- (b) Import the required libraries, which can be found in the lib folder. (You may have to import other libraries dependent on your system, java version, etc.).
- (c) Compile the code.
